

Newport, R. I., 18

Mr Superintendent

In acc't. with D. C. DENHAM,

—DEALER IN—

WATCHES, CLOCKS AND SPECTACLES.

276 THAMES STREET.

CLOCKS, SPECTACLES & JEWELRY REPAIRED.

WE EXCEL IN WATCH REPAIRING.

Dear Sir

I have in my possession
 what purports to be a five dollar Gold piece
 U.S.

It has a fracture on the edge of the
 Eagle side, since the figures 1848 are
 not so perfectly in line as a true coin.
 But it weighs 128 grains. It is very slight-
 ly whitish where scraped on the edge,
 But Nitric Acid will not touch it.
 It is well plated with gold but does
 not ring when dropped. It made of
 Platinum, is it of any value to you or
 as a Curio. The milling on the edge is
 pretty good but not perfect.
